Re: Letter of recommendation for Mr. Benard Veasley

To Whom it may concern,

The Stockton Unified School District employed Mr. Veasley the school year 2021-2022 as Director of Transportation. Mr. Veasley worked diligently during his tenure to improve the transportation department and to initiate several programs changes that aligned with the school district vision for the department. Mr. Veasley was successful in adding these aspects to help efficiency and accountability for the school district and patrons.

Mr. Veasley was successful in improving the facility. Mr. Veasley was very proficient in communication with the School Board on issues as they arose and was motivated to find solutions and work with parents/students on ways to improve transportation.

I find Mr. Veasley to be a very hard worker that put in hours above and beyond the expected scope to help promote the department. Mr. Veasley enjoys a challenge and was very open with the School Board in his vision and expectations for the department. Mr. Veasley desire and effort has resulted in many initiatives that are still in place today. Mr. Veasley resigned after a short stay to take care of his father.

I recommend Mr. Veasley for any leadership position in your school district/organization, and I would be happy to visit with you regarding Mr. Veasley and his experience in our school district.

Sincerely,

Ray Zulueta - Area 4
